

## Forever Bound This Way

Once upon a summer dream  
Twice around the world it seemed  
Somewhere in the after glo  
Someplace where I long to go  
I'll be chasing rainbows  
Wondering where the time goes

Standing on a mountain high  
Tryin' to catch a fallin' sky  
Dancin' down a dusty road  
Lookin' for a motherload  
There on the horizon  
Walkin' in the mornin' sun

I'm lost and found  
Forever bound this way  
Where wind and tide  
Make dreams collide I'll stay another day

Stranded on a Grecian isle  
Falling for a perfect smile  
Walking on the desert sand  
Searching for the holy land  
Driven by these choices  
From all these inner voices

Diving in an ocean blue  
Everybody's passing through  
Savoring a little rain  
Something that I can't explain  
The circle of the seasons  
The rhyming of my reasons

I'm lost and found  
Forever bound this way  
Where wind and tide  
Make dreams collide I'll stay another day

Clinging to a feeling (that keeps me)  
Crying out for truth (that keeps me)  
Holding on to faith (that keeps me)

Lost and found  
Forever bound this way  
Where wind and tide  
Make dreams collide I'll stay another day
