

# Waiting For Her Long Lost Forever

She's waiting for her long lost forever  
She's wishing on a star every night  
Lost in a dream  
In a movie she's seen  
Waiting for her long lost forever  
Never sure what she'll find

She thinks about her long lost forgotten  
The one who held her close through the night  
But she turned away  
He couldn't stay  
Waiting for her long lost forever  
Never sure what she'll find

How many years  
Comforting tears  
Fighting her fears alone  
Longing to share  
No one to care  
Nobody there to hold her tight through the night

Lost in a dream [Time slips away]  
In a movie she's seen [Day after day]  
Waiting for her long lost forever  
Never sure what she'll find

Soon there'll be another summer  
She'll open up her windows wide  
And let the light in  
Then she'll begin  
Waiting for her long lost forever  
Hoping for her long lost forever  
Hoping for her long lost forever  
Never sure what she'll find
